How to check: From any iSeries command line (as any user), type DSPPTF and press <ENTER>. Located at the top of the screen, the TLxxxxx number is the latest cumulative package installed.

R6V02 Installation Special

PFW's new software package, R6V02, is scheduled for release on April 1, 2004. To make the upgrade as convenient as possible, you can have PFW load the new release for you and perform training on the new capabilities of R6V02. PFW will load the new release for you on a Sunday (remotely), and perform Lotus Sametime training for R6V02 on Monday.

For any questions regarding these services, or to book an appointment, please call Dave Fulton at (519) 474-3700.

Thank-you

PFW would like to thank Bob Vohl and Lewis International for once again volunteering to take part in our first beta test for the PFW R6V02 release.

Proposed Workshop—PFW New Release R6V02

PFW is investigating the possibility of hosting an R6V02 release workshop in London, Ontario in the middle of May, 2004. Some of the topics covered will include: the new parts discount facility, the multiple source parts feature, the IntelliTech feature, and IntelliDealer updates.

If your dealership is interested in sending representatives to attend this workshop, please fill out the following information and fax this sheet back to Laurie Brown at (519) 474-3949.
