How to check: From any i5 command line (as any user), type DSPPTF and press <ENTER>, the top TLxxxxx number is the latest cumulative package installed.

Client Services Update

A new feature in IntelliDealer Parts Ordering allows for the distribution of freight charges on emergency parts orders, based on quantity, line items, price, sales order, or weight.

The FREIGHT table in the PFW business system must be set up in order to use this feature. A "part number" is assigned to freight charges, which will

show up on the sales order, and the default distribution method is set.

Once the table is set up by branch, and when an order is being updated after a receipt, the user is automatically prompted to enter a freight amount and choose how the freight charge will be distributed over the parts order. This process will add a line to the sales order in order to show the "part num-

Holiday Hours

The PFW business offices will be closed for the following holidays. A limited number of support personnel will be available from 8 AM to 5 PM ET. Emergency after-hours support will also be available.

Civic Holiday

Monday, August 7, 2006

Labor Day

Monday, September 4, 2006
(Emergency support only)

Attention All Dealers Running IBM Release V5R1M0 or V4R5M0

PFW Price Updates will no longer be available for customers running on the IBM releases listed above, effective December 31, 2006. Please contact PFW Client Services at (519) 474-3700 to discuss your upgrade path to a currently supported IBM release prior to the year-end deadline.

Order Number	Line Items	Quantity	Weight	Price	Amount
207091	1	1	1	3.23	7.00
207097	4	4	0	363.12	28.00

ber" associated with a freight charge, along with the amount of the charge.

This new feature eliminates the need to back out of Parts Ordering and then enter the Sales Order in order to manually add a freight charge.
