## Merchant Manager Credit Card Authorization

This IntelliDealer product is an online, integrated credit card transaction processing solution that handles the submission and approval of credit card transactions in your dealership.

Merchant Manager is offered by Kerry Hochstein & Associates, a third-party credit card transaction processing solution provider, with an interface to PFW IntelliDealer. PFW developed this feature in an effort to streamline and efficiently handle credit card transactions for dealership customers wanting to pay by standard credit cards such as MasterCard, Visa, Discover and American Express.

### How it works:

IntelliDealer sends the Customer Name, Amount, Customer Number, Invoice Number, Street Address, ZIP Code, Employee / Salesperson ID. The Card Number and Expiry Date can be manually entered or swiped through an IntelliDealer compatible card reader, like our Signature Pad (Fig. 1). Simply submit the information to Merchant Manager (Fig. 2) and await the Authorized or Declined response.

Fig. 1

Currently the user has to re-key the authorization number back into IntelliDealer.
