Effective in R6V03:

Finance Options Tab in Equipment Quoting

Effective with a recent PPU for R6V03, you can calculate and print up to five financing options for an IntelliDealer equipment quote. Each financing option can be assigned an interest rate and a number of payment months. These are applied to the quote amount in order to derive a monthly payment amount that can be presented to your customer. The Finance Options tab is activated by a switch in User Group Security for system # 801- Product Support - Equipment Quoting.

For example, on a quote for \$79,900 (Fig. 1), the user can click on the Finance Options tab and enter up to five finance options. In this example there are financing options from 12 to 60 months, with a different interest rate for each time period (Fig. 2). When the *Calculate* button is pressed, the monthly payment amounts will be displayed.

When the user prints the quote, the Finance Options print at the bottom of the quote (Fig. 3).

For more information on this software feature and others, contact PFW Client Services at (519) 474-3700, or e-mail support@pfw.com.
