# Parts Cross-Referencing

Objective: create a better service

Over the past several years, PFW and Interchange Inc. have provided parts cross-reference information to users of the PFW dealership management system.

## New Features and Benefits

PFW users can use their Internet connection to perform an online lookup of cross-reference details from the PFW availability screen. The direct link provides up-to-date cross reference information from within the PFW parts availability screen, eliminating the need to wait for and load updates on your local system. No disk space is consumed on your dealerships server!

## To Order

Contact PFW to purchase the interface software. Contact Carol Hendricks from Interchange, Inc. at 952.929.6669 or [chendricks@interchangeinc.com](mailto:chendricks@interchangeinc.com) to get further details and sign up for access to their interchange data.

## Request More Information

If you would like more information, please visit [www.pfw.com](http://www.pfw.com) or contact our Sales Team at (519) 474-3300 ext. 230 or [sales@pfw.com](mailto:sales@pfw.com).
